

The BioMat: Quantum Healing Energetics

Benefits of the BioMat

- Stimulate a rapid calming of your mind and body
- Improve memory and present time consciousness
- Improve mindfulness while triggering the relaxation response
- Remove toxins and improve immune function

How does the BioMat work?

The BioMat uses a combination of far infrared light, negative ions and amethyst quartz to open the channels of cellular communication. The BioMat converts electricity into Far infrared rays (FIR), nature's invisible light. This type of light reduces swelling and inflammation, increases blood flow and has been shown to destroy cancer without damaging healthy tissues. The deeply penetrating light reaches 6-8 inches within the body where it stimulates healing and regeneration of nerve and muscle.

The BioMat also produces negative ions, nature's energizer, which deliver a molecular level massage. Negative ions are odorless, tasteless, invisible particles that we inhale in abundance near waterfalls, rain forests and

oceans. Once in our bloodstream, they have a positive effect on the rate at which serotonin oxidizes in the blood. The result is increased alertness, awareness and memory.

The two components, negative ions and far infrared rays, are transferred through amethyst quartz channels. Amethyst quartz is nature's super conductor. It is scientifically found to offer the steadiest, most powerful delivery of healthy far infrared light waves and the highest vibrational frequencies into the body. With overall wellness stemming from the vibrational resonance delivered deep into all tissues of your body, the BioMat allows you to experience a deep cleansing of the mind and body.

The BioMat experience, offered for both 30 and 60-minute sessions, provides the perfect gift! You enter a room that is customized for enhancing tranquility. Low light, waterfall sounds and calming music accentuate your experience. You remain clothed. Gift certificates available for \$25 or \$45.

Sessions:

30-minute session: \$25

1-hour session: \$45
